To the Shareholder and Board of Directors

DAVID SHERMAN & COMPANY

500 Skokie Boulevard Suite 525 Northbrook, Illinois 60062

We have examined the financial statements of **DAVID SHERMAN & COMPANY**, an Illinois corporation, for the year ended October 31, 2004 and have issued our report thereon dated November 11, 2004. As part of our examination, we made a study and evaluation of the Company's system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards and Rule 17a-5 of the Securities and Exchange Commission.

This study and evaluation included the accounting system, the procedures for safeguarding securities, and practices and procedures followed by the Company:

- a) in making the periodic computations of aggregated indebtedness and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e);
- b) in making the quarterly securities examinations, counts, verifications and comparisons, and the reconciliation of differences required by Rule 17a-13;.
- c) in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3.

Rule 17a-5 states that the scope of the study and evaluation should be sufficient to provide reasonable assurance that any material weakness existing at the date of our examination would be disclosed. Under generally accepted auditing standards and Rule 17a-5, the purpose of such study and evaluation is to establish a basis for reliance thereon in determining the nature, timing and extent of other auditing procedures necessary for expressing an opinion on the financial statements and to provide a basis for reporting material weaknesses in internal accounting control. Our study and evaluation was more limited that would be necessary to express an opinion on the system of internal accounting control taken as a whole.

The management of **DAVID SHERMAN & COMPANY**, is responsible for establishing and maintaining a system of internal accounting control. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of a system are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. However, for the purpose of this report under Rule 17a-5, the cost-benefit relationship has to be disregarded in determining weaknesses to be reported.

Because of inherent limitations in any system of internal accounting control, errors or irregularities may nevertheless occur and not be detected. Also projections of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study and evaluation made for the limited purposes set forth in the first paragraph would not necessarily disclose all weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of **DAVID SHERMAN & COMPANY**, taken as a whole. However, our study and evaluation discloses no condition that we believed to be a material weakness.
